Welcome

Pain Care Associates, aims to provide you with the best quality healthcare, utilizing a sophisticated combination of medications and interventional procedures to insure that you ultimately are able to experience the maximum amount of long-term pain relief and maximal daily function. Our top priority is patient satisfaction and our healthcare team is dedicated to providing personal attention, compassion and understanding to the unique healthcare concerns of our patients.

Pain Care Associates led by Dr. Rakesh Gupta and the Clinical and Support staff, combine extensive experience and cutting edge technology in addressing the pain management concerns of our patients with challenging chronic pain conditions such as chronic lower back or neck pain, degenerative disc disease, osteoarthritis, CRPS/RSD, nerve pain conditions, headaches, facial pain, sports and work related injuries. We specialize in the detection of where the pain is coming from and identifying the nerve supply of the pain.
